

Matisse

For over thirty years, Matisse has been New Zealand's leading importer and supplier of authentic contemporary furniture, lighting, kitchens, bathrooms and contract installations.

Matisse imports furniture created by some of the great designers, architects and artists from the late 1800s to the present day, including Charles Rennie Mackintosh, Le Corbusier, Frank Lloyd Wright, Eileen Gray, Charlotte Perriand, Charles and Ray Eames, Frank Gehry and Antonio Citterio.

Many of the pieces that Matisse sells are collector items or classics of the future.

The kitchen, bathroom, lighting and contract departments are staffed by in house specialists who have the experience to source and place exactly what you need for your renovation, new build, project or your workspace – ergonomic chairs are a specialty.
